INTRODUCTION. Phase contrast cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to musculoskeletal cine MR imaging has been applied to muscle...
