ROTATOR CUFF: MRI FINDINGS WITHOUT CLINICAL SIGNIFICANCE

Jenny T. Bencardino, M.D.
Associate Professor of Radiology
NYU Hospital for Joint Diseases

Coracoacromial Arch
• Coracoid Process Morphology

Coracoacromial Arch
• Os acromiale
  — Failure of fusion >25 yo
  — Subacromial impingement
  — May predispose to postoperative deltoid tendon rupture
  — Always mention it!

Not so normal variant

Coracoacromial Arch
• Coracoacromial Ligament

Coracoacromial Arch
• Acromion

Acromial Shape

Acronion
Coracoacromial Arch

Rotator Cuff and Bursae
- Supraspinatus Tendon
  - Magic Angle

Rotator Cuff and Bursae
- Muscle fibers

Subcoracoid bursa
- Subcoracoid bursa
- Subscapularis recess
